AUGUST

AUSTRALIAN LEAN SUMMIT 2025

Program - Monday August 11, 2025

Pre-Summit Symposium

Driving Sustainable Business Breakthroughs Through Lean Principles

Join us for a powerful symposium where we explore how Lean Thinking is transforming operations across manufacturing, mining, and heavy industry. Through three compelling case studies, participants will gain actionable insights, proven strategies, and fresh inspiration to drive breakthrough performance in their own organizations.

1230-1630

1230: Registration & Lunch

1300 - 1315: Welcome & Introductions

1315 – 1440: Australian Manufacturer: Reducing Lead Time by 50%

Discover how one manufacturer radically improved customer experience by cutting lead times in half. This high-energy, practical session will leave participants inspired with fresh ideas and strategies to accelerate flow and delight customers.
